PROJECTS

KPMG-Sponsored IS Consulting Challenge, AI & Analytics Track (IS 3060)

Fall 2026

- Advising a simulated three-store outdoor retailer on unifying customer support across phone, email, web, and social channels with no central CRM
- Analyzing ~800 support interactions in Tableau to surface response-time bottlenecks, inquiry trends, and satisfaction drivers by channel
- Designing an AI support assistant prototype with human escalation and governance controls; presenting to KPMG consultants, with work tracked in GitHub

Regulars: Customer Win-Back Automation Platform (founder project)

2026 – Present

- Built a working web demo that scores each customer's churn risk with a logistic model based on their own visit rhythm, ranks outreach by risk $\times$ monthly value, and automates personalized SMS/email win-back messages
- Added an ROI calculator and \$49/month pricing model; pitching in person to Salt Lake City gyms, retailers, and restaurants

Cricket Batting Performance Analysis (Python)

Apr 2026

- Ran summary statistics, a hypothesis test, and two linear regressions across 1,000+ innings; showed India's strike rate exceeds Pakistan's at the 5% significance level
